## MILITIA PREVENTS DOUBLE LYNCHING

### NEGROES TAKEN TO LUVERNE AND LATER ESCUED TO MONTGOMERY

Luverne, Ala., December 21.—Through the determination and resources of a Crenshaw County deputy sheriff and a member of the Luverne military company, two of the negroes who precipitated the race war that has stirred Crenshaw county for almost a week, escaped being lynched Wednesday afternoon.

Followed by a posse of indignant Crenshaw county farmers, determined to avenge the shooting of the Shirley and Pate families, the negroes and the deputy and National Guardsmen were forced to run over a hilly country for more than a mile and only the timely arrival of Colonel Charles R. Bricken, solicitor of the Second Judicial Circuit and commander of the 2nd Alabama Infantry, prevented the negroes from losing their lives or the officers from being compelled to slay some of their friends and neighbors.

Just as the posse of farmers were fixing to attack the farm house in which the officers and their prisoners were barricaded an automobile full of militiamen and Colonel Bricken, driving a team at breakneck speed, drove up. The sight of the high power rifles and the force of numbers, cooled the ardor of the mob and the two negroes were allowed to be carried without a more harmful demonstration than fierce glances and the presence of two score men with shot guns, rifles and pistols.

## MOTHER'S KISS PROVES FATAL

### DRINKS CARBOLIC ACID AND KISSES BABY, BOTH ARE DEAD AS RESULT

New Orleans, La., Dec. 21.—After swallowing a large dose of carbolic acid at her home here today, Mrs. Mary Kadolich lay down on the bed with her lips pressed to those of her 5-days-old infant, which she firmly clasped in her arms. When found, the baby was dead as the result of absorbing the fresh acid from her mother's lips, and Mrs. Kadolich was in a dying condition. She is said to have quarrelled with her husband last night.

### FARMER SHOT FROM AMBUSH

Bay Minette, Ala., Dec. 21.—While watering his horse in a branch near his home last evening at about 9 o'clock, George Phillips who resides about eleven miles north of here, was shot by some ambushed enemy, and seriously injured.

Mr. Phillips states that he cannot place the blame on anyone, as he has no enemies in the neighborhood and the shooting is the source of much suspicion. The moon had not risen when Phillips led his horse to the stream, carrying a lantern, and he was unconscious of any one being in ambush. The animal had hardly started to drink when the shot was fired, passing into his side and felling him instantly.

## CITY SCHOOLS GET THE EAGLE LIBRARY

### VOTING WAS LIVELY THIS MORNING—SCHOOL HAD MANY IN RESERVE

At 12 o'clock today the last vote was received in the Eagle Library Contest, and the City Schools and the Public Library each named a counter. When they had gone through with the count, the following was the result:

Dothan City Schools ... 1,157,000  
Dothan Public Library... 875,000  
Elks Lodge ..... 394,600

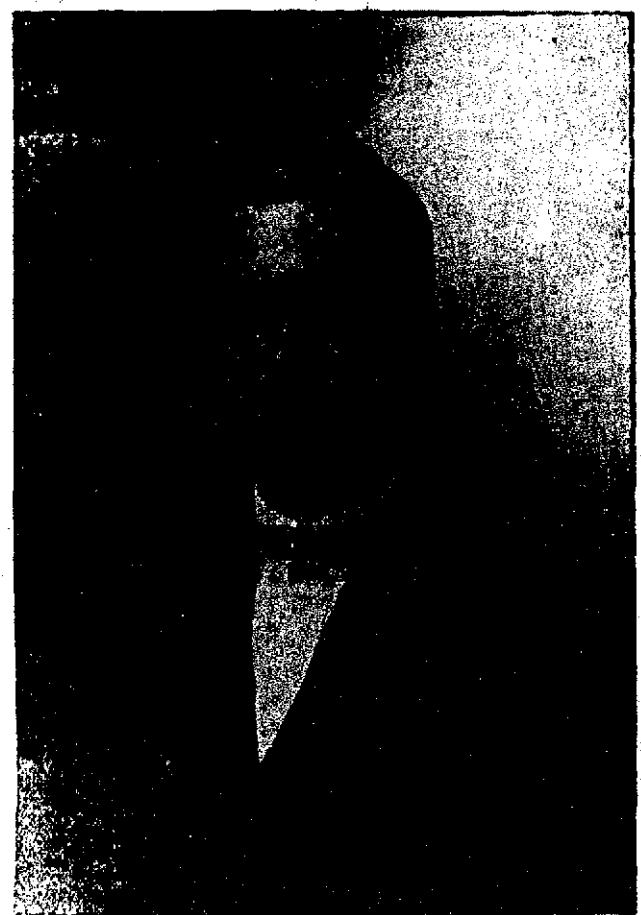

This gave the schools a majority of 282,300 votes.

Messrs. Thomas Burdeshaw and L. G. Biggers were selected to make the count.

### YOUNG-KIRKLAND.

Hon. J. R. Young, left this evening on the Coast Line train for Ozark, where he is to be married tonight to Mrs. Lucy Kirkland, the widow of the late W. W. Kirkland, who was before his death one of the most prominent lawyers in this section of the state. The bride-to-be is a sister of the deceased wife of Mr. Young.

Mr. Young is probably more closely identified with Dothan's history than any other citizen in the town. He moved here from Dale county about 23 years ago, and was at one time chief of police, later a member of the council, and has served as Mayor for 1896-7, then in 1904-5, and again

HON. J. R. YOUNG  
Who Will be Married tonight to Mrs. Lucy Kirkland at Ozark.

in 1906-7.

He was in the drug business till the death of the late Dr. Howell, when he was elected as president of the Houston National Bank.

He is one of the most popular men in the city, and his official career is without criticism.

Thursday, December 22 1910

There is no telling what some men will say next.

The shopping is good, and will remain good to the last minute.

It is time some definite action was taken in giving the town a lighting system.

It matters not so much what we get as Christmas presents, but it is the spirit of the giving.

The best way in the world to have a good town, is to first convince yourself that we have it.

The weather is so fine now till we can hardly expect it to continue three or four days longer.

Senator Lorrimer of Illinois, is to hold his seat, so he might hunt up Bullinger and compare grades.

There is much guess as to what will be done with the liquor question in Alabama, for the time is right at hand.

The days are spinning by at a rapid pace, and we will be looking at the shattered Christmas toys within a week.

The census clerks know that they will never stand much show at the job again. They are making good use of it now.

Many people out of town are coming here to do their shopping. There has been a better display of holiday goods than the town has shown before.

The late Major Hanson so wrote his will that it would tend to queer certain kinds of religious fad, that had something to do with wrecking his family, as he thought.

Most of the business houses will close Monday, which is a fine thing to do, for it will take a couple of days to rest up from the Saturday's hustling.

No boy or girl in Houston county should wake up Christmas morning and ram a hand down an empty stocking. If nothing is doing, the information should be handed out in advance that Santa cannot make the rounds.

Well, about the first of the year, we all may turn out and take the census of Dothan, but it will do but little good. The report is gone out, and that report will stand for the next ten years, matters not how many we can show.

## In Kentucky, Too

Major Baily K. Ashford, of the medical corps of the United States army, has discovered that hookworm is prevalent in Eastern Kentucky, says the Courier-Journal. The major thinks that nearly twice as many cases from that section of Kentucky show up with hookworm, as are found in other sections, even farther south.

Hookworms will have the laugh for a while, but the doctors will go right on treating patients and curing them, and it will but a little while before those patients will be a community's own advertising.

The good results from the treatment cannot be hid under a bushel, and when this puny boy is cured, and gets so much new life in him till he doesn't know what to do with himself, the news will spread.

The Hookworm Editor of the Eagle believes that within a year or two the work will be felt in this county.

No new discovery was ever made that didn't pull down adverse criticism for a while.

## Getting a Taste.

Milwaukee, will, in a year or two be famous for something else than a well known beverage. It will be famous for some of the fool laws it has. Victor Berger, Socialist, and congressman-elect from that district, is having trouble now. A bill was submitted to the council which was to allow free water to washerwomen. The council was so socialistic till the bill passed, although the city attorney said that it was unconstitutional, and Beger was against it. It went through anyway.

This is the first taste of socialism, but it will be up for other hearings in Milwaukee in the future.

Socialist leaders in that city want authority to erect municipal hospitals, municipal ice plants, municipal packing houses, and the next thing we look for that the will want to make municipal beer.

The trouble about Socialism, the people who form the bulk of that party, never know what they want. All they are certain of, is that they want something they haven't got, and something that the industrious hardworking people do have.

## Get the Higginbotham Habit!

J. B. Higginbotham, of Elbert county, is a business man as well as a farmer.

As soon as the majority of farmers of Georgia enlist in his class ours will be one of the wealthiest states in the nation.

How does Mr. Higginbotham do it?

By living at home—and that means diversification.

The other day, as told in The Constitution, he came into Elberton with twenty-three bales of cotton.

For them he received a check approximating \$2,000.

If he had been like many other farmers, he would have kindly visited the banker, the merchant and a few other of his town friends, divided up his check with them and—maybe—put the small residue in the bank.

But that \$2,000 was unincumbered.

Mr. Higginbotham didn't. He a penny in Elberton, or elsewhere. So he could salt down his \$2,000 in the bank or anywhere else without asking permission of his creditors.

He went back home and is making plans for next year—and he isn't taking orders from any one in making out that program, either.

The process is easily explained. Mr. Higginbotham raises practically everything essential to the sustenance of his family and his stock right on his own acres.

He raises surplus in diversified crops to exchange for his products for cash or on credit.

He feeds the bank account at several angles.

That's one point.

Another point is that he protects the bank account at other angles by keeping at home the money he would otherwise benevolently present to western grangers and to the beef trust, for corn, hay, oats and meat.

There ought to be—and could be—two hundred thousand Hig-

ginothams in Georgia.

There is not a farm in the state, however small (Higginbotham's isn't a particularly large one,) that may not be made, not only self-sustaining, but as well productive of revenue from two or three sources other than cotton. It all depends on the individual.

The coming year ought to see an innumerable host of farmers getting the Higginbotham habit—which is increasing at a more rapid rate than the city man dreams.

That way lies independence for Georgia—genuine freedom for the individual from the poverty and tyranny of tenancy, almost absolute protection for the state from the flare-back of stringencies.—Atlanta Constitution.

## TOO MUCH PREPAREDNESS.

There can be such thing as too much preparedness for war. A great standing army is about the same menace to the peace and prosperity of a nation that an individual bad citizen with the ever-ready pistol in his pocket is to the community in which he moves. And we can imagine nothing more perilous to the liberty of any people than to put that liberty in the keeping of men with guns in their hands and epaulettes on their shoulders, who, like the individual with the pistol, are liable to shoot first and do their thinking afterward. This country has no need of a great standing army. When occasion arises, as was the case at the outbreak of the war with Spain, an army of patriotic men, such as makes the best fighters in the world, can be brought into requisition at very short notice.—Albany Herald.

Recently the defaulting cashier of a Texas bank committed suicide and the verdict of the coroner's jury was: "Died from exposure."

## Homes Needed In Dothan

There is an alarming scarcity of homes in Dothan just at this time and the man who will build a number of houses to rent at from \$12.50 to \$15 a month will not only make a most profitable investment for himself, but will really be a public benefactor. We have had a dozen inquires during the past week for homes of this class.

In this connection we have for sale several pieces of vacant property close in at prices low enough to warrant the building of houses to cost from \$1,000 to \$1,200. For instance, we are offering 270 feet east front two blocks west of the New High School building and the same distance from West Main Street, in an all white neighborhood, 174 feet deep at a price so that a 54 foot lot will cost the buyer only \$160. Five \$1,000 houses can be built on this lot and the total cost of each would be only \$1160. They will rent for \$15 per month each.

North St. Andrews street, is the logical, and in fact the only street remaining for business development. It is the thoroughfare between the two depots and has no expensive homes to move when it becomes necessary to use the space for business property. The business section can grow only in that direction. Property has advanced rapidly on this street in the past two years and is still rising. We have for sale within a block of the new post office two choice lots, that will sell for \$1500 more than our price within twelve months. See us about them quick.

DOTHAN, ALABAMA.

The official census shows that Dothan's increase in population during the past ten years has been considerably over two hundred percent. A booster banquet will be held on Friday night of Christmas week in celebration of this showing that Dothan is the tenth city in Alabama although one of the youngest. A party of the leading business men of the city held an informal meeting yesterday afternoon and discussed plans for such a celebration as has never before been held in our city.

Committees on arrangements were appointed and they will begin their work at once. A booster program will be arranged and plans discussed looking to making Dothan a twenty thousand city in 1920. This will be easy to do if we begin right and right now. With the lead already gained over all the other towns in south Alabama, the census showing Dothan to be the largest city in the state south of a line drawn through Mobile and Montgomery, it will be easier to attract capital and people than when the census showed only 3,275 people.

Dothan is now the most important on the Atlantic Coast Line between Montgomery and Waycross and is nearer the best harbor on the gulf coast than any other towns equal size. These two facts alone are bound to attract attention and it is only a matter of a few years when there will be other railroads to the coast and the interior.

Over a hundred invitations will be issued to the booster banquet and every man who receives an invitation is expected to be present.

## Social Happenings

### Mrs. Baker Entertains Sunday School Class

At her home on South Oates street, Mrs. G. M. Baker entertained her Sunday school class last evening very pleasantly.

The home was decorated throughout with the Christmas color and everywhere the Christmas spirit prevailed.

On entering, delightful fruit punch was served. The feature of the evening was the guessing contest, in which Mr. Thomas Burdshaw was the successful winner. After this they were invited into the spacious dining room, where covers were laid for twenty-five. A delightful salad course, followed by Angel Russe and fruit.

Mrs. Baker presented each member of the class with a little remembrance book. The guests departed at 11 o'clock, and will long remember their teacher's kindness.

Miss Lilly Bell Roberts, returned this morning to her home in Valdosta, after a pleasant visit here to Mrs. O. P. Green, and Mrs. J. H. Jones.

Miss Elsa Mae Roland, has returned from Mobile, where she is attending school to spend Christmas at home.

Miss Annie D. Mitchell, a former teacher in the Dothan City Schools but now of Birmingham, is in the city this week visiting friends.

Miss Ada Sharpless, has returned from a few days visit to friends and relatives at Laverne.

Miss Helen Carter, who has been teaching at Donaldsonville, is here to spend Christmas.

Miss Gusnie Mae Stallings, has returned from Montgomery, to spend the holidays at home.

Miss Georgia Bush, arrived last night from school at Montgomery, to spend Christmas at home.

Miss Nettie Leslie, returned last night from Montgomery, to spend Christmas at home.

Miss Jimmie Flemming of Hartford, spent yesterday afternoon in the city shopping.

Fred Ghent, arrived last night from Marion to spend the Christmas holidays with home folks.

## METAMORPHOSIS.

Says a writer in the Scientific American: "A wonderful spectacle is presented by the sudden apparition of an insect's wing at the completion of its metamorphosis. The transformation of the grub into the butterfly, though familiar is none the less amazing, but the evolution of the active and the gossamer-winged dragon-fly, from its ugly and sluggish aquatic pupa is still more impressive. Early on a May morning the pupa emerges from its cocoon at the bottom of a ditch, swims on its back, by paddling with its longhaired paws to the stem of an aquatic plant, and climbs up out of the water. Then, after a momentary pause, the skin suddenly bursts open and the perfect insect appears, with closely folded wings, which soon unfold and assume their final form.

"The older naturalists thought that the insect 'swallowed air,' with which the wings were inflated. In reality the air is absorbed in the digestive organs, causing an increased blood pressure, which mechanically expands the wings. The presence of dew is also necessary, hence the first flight is always made at dawn.

"This spectacle of the birth of a wing may be observed in dragon-flies reared in an aquarium, the atmosphere of which should be moistened with an atomizer when the pupa rises to the surface."

## BANK OF ENGLAND NOTES.

About the year 1819 a great outcry was raised against the Bank of England for not adopting a style of note that could not be imitated, at the same time preventing the sacrifice of life which at that period was all too common, the punishment for forgery being death. The subject at last became so pressing that the government appointed commissioners to investigate the cause of the numerous forgeries, and whether a mode could be devised whereby the forging of bank notes might be prevented. The result was the bank note of today. The color of the paper is peculiar and cannot be imitated exactly by counterfeiters except at a great expense. The combined thinness and strength of the paper are also unique. It is made in sheets large enough for two notes. Each note, before it is sized, weighs about eighteen grains and if then doubled, it is strong enough to suspend a weight of thirty-six pounds.

Peculiar, too, is the texture of the paper. It has a crisp feel, invariably the same, and such that bank clerks of experience can readily detect forgeries by this test alone. Then the wire mark, impressed in the making by a frame, costly to make and difficult to use, is practically inimitable. Each note has the rough edges uncut, not to be produced by any mode of cutting paper that is not made expressly for the purpose.

The paper for printing is dampened with water in the exhausted receiver of an air pump. The ink used in the plate print is made of Frankfort black, which is composed of the charcoals of the tendrils and bunks of the German grape, ground with linseed oil. This ink has a peculiar and very deep shade of black, common black inks being tinted either with blue or brown.

#### THE IDEAL LOVER

He must be a man as pure and gentle as he is strong.

What is the modern woman's ideal of a lover? One of them says:

He must be handsome. Handsome in the accepted sense of straight figures and a fine figure.

He need not be possessed of brute strength. Woman's admiration for mere physical poweress is on the decline.

He must trust the woman he loves, as he also trusts other men, assuming there is variety in taste and also believing in virtue.

Must be a man who will be something beside a husband and a father, just as women aspire to become something beside wives and mothers.

He must be a man who understands a woman does not earn her board by living with him as his wife. Marriage is the voluntary union of two loving souls.

He must not be jealous. Jealousy is the product of inordinate exclusiveness, distrust and a desire for possession.

He must be mentally equipped to become a true comrade, for, as Professor Slosson of Wyoming University has said: "The future of civilization depends more upon the proper mating of the rising generation than on any discovery they may make in the arts and sciences."

Hon A P Jordan, Pure Food Inspector for the State of Florida, and his daughter, Indine, are in the city visiting the family of Mrs J H Simonton, and H E Jordan.

#### A Simple Safeguard For Mothers

Mrs D Gilkeson, 326 Indiana Ave, Youngstown, Ohio, gained wisdom by experience. "My little girl had a severe cold and cougher almost continuously. My sister recommended Foley's Honey and Tar. The first dose I gave her relieved the inflammation in her throat and after using only one bottle her throat and lungs were entirely free from inflammation. Since then I always keep a bottle of Foley's Honey and Tar in the house. Accept no substitutes. For sale by N. H. McCallum.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the cause of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have placed in each bottle a full and complete account of the cure in plain English. They offer One Hundred Dollars for any case that it fails to cure. Send for free information. #### AT THE ELITE

There were only a few out last night to attend the play "Dr. Jekyll and Mr. Hyde" at the opera house but those there seemed to enjoy the exciting drama.

This was the last of the three engagements of the Sylvia Summers Co., and the next attraction will be the Music Hall Girl, presented by a strong company Friday night. This promises to be the best of the season.

The city schools closed today at noon for the Christmas holidays and will remain so until the first of January. Many of the teachers have left for their home and some will remain here.

J C Garner, of the Bay Line Road left this morning for Winchester, Tenn., where he will spend the Christmas holidays with his parents other relatives and friends.

John Lewis Leslie, returned last night from Auburn, where he has been attending school and will spend the holidays at home.

A Colvin, of Abbeville, spent last night in the city.

#### POINTED PARAGRAPHS.

The real value of a dollar is what you can get for it.

Wisdom often consists of keeping what you know to yourself.

It doesn't require a skillful driver to drive one man to beat.

A woman isn't self-made just because she makes her own complexion.

Words are sometimes the results of thought, but too often they are not.

If you have occasion to pick your company, use a magnifying glass.

Never judge the strength of a man's character by the size of his muscle.

## WANT OPEN BARS FOR DOTHAN

As a result of a petition passed by the city council to have the city attorney prepare a bill for open saloons for Dothan, a petition is in circulation today asking Hon. T. J. Whatley, the next legislator from Houston county, to recommend open bars for Dothan.

The bill is to provide that the saloons be allowed to open at 6 o'clock, a. m. and close at 9 p. m. A high license is to be charged, and no other business, such as pool room, or other games or devices, can be run in connection with the business.

The petition was taken out this morning, and was soon filled with the names of business men of the city and the city officials.

Another petition will be circulated in a few days, asking for a dispensary for Dothan, and those who are in favor of this will be able to make their request to the representative.

J. C. Garner, of the Bay Line Road left this morning for Winchester, Tenn., where he will spend the Christmas holidays with his parents other relatives and friends.

**MRS. VEST FELT LIKE CRYING**

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Thousand Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
